Praise for the First Edition: `Totally reliable... the authors have produced a book urgently needed by all those charged with introducing students to the classics... quite indispensable' - Times Higher Education Supplement This is a fully updated and expanded new edition of the successful undergraduate text. Providing a lucid examination of the pivotal theories of Marx, Durkheim and Weber, the authors submit that these figures have decisively shaped the discipline. They show how the classical apparatus is in use, even though it is being directed in new ways in response to the changing character of society. Written with the needs of undergraduates in mind, the text is essential reading for students in sociology and social theory.

Giddens's analysis of the writings of Marx, Durkheim and Weber has become the classic text for any student seeking to understand the three thinkers who established the basic framework of contemporary sociology. The first three sections of the book, based on close textual examination of the original sources, contain separate treatments of each writer. The author demonstrates the internal coherence of their respective contributions to social theory. The concluding section discusses the principal ways in which Marx can be compared with the other two authors, and discusses misconceptions of some conventional views on the subject.

Jokes and Targets takes up an appealing and entertaining topic—the social and historical origins of jokes about familiar targets such as rustics, Jewish spouses, used car salesmen, and dumb blondes. Christie Davies explains why political jokes flourished in the Soviet Union, why Europeans tell jokes about American lawyers but not about their own lawyers, and why sex jokes often refer to France rather than to other countries. One of the world's leading experts on the study of humor, Davies provides a wide-ranging and detailed study of the jokes that make up an important part of everyday conversation.
