This report documents a study of truck parking issues along the major state highways in Wisconsin. The effort builds upon another project at the National Center for Freight and Infrastructure Research and Education (CFIRE) funded by the Mississippi Valley Freight Coalition to study the truck parking issues on Interstate highways in the ten-state AASHTO Mississippi Valley Region. This study also inventories both public and private parking facilities along a select number of state highways. A web geographic information system (GIS) tool was developed for continuous survey and public participation. The study surveyed highway patrol officers, public freight planners, and truckers to identify parking facilities incommensurate with truck parking needs. It proposes a method for ranking parking facilities identified as having the most need of additional truck parking capacity. Building on a review of previous studies and face-to-face interviews with carriers, the report contains a discussion of why existing parking facilities do not meet needs and describes a set of low cost strategies for addressing

the information they need to set up their own online business.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
