This major new textbook uses lively prose and a series of carefully-crafted pedagogical features to both introduce Sociology as a discipline and to help students realize how deeply sociological issues impact on their own lives. Over the book's ten chapters, students discover what Sociology is, alongside its historical development and emergent new concerns. They will be led through the theories that underpin the discipline and familiarized with what it takes to undertake good sociological research. Ultimately students will be led and inspired to develop their own sociological imagination – learning to question their own assumptions about the society, the culture and the world around them today. Historically, the majority of introductory Sociology textbooks have run to many hundreds of pages, discouraging students from further reading. By contrast, Discovering Sociology has been carefully designed and developed as a true introduction, covering the key ideas and topics that first year undergraduate students need to engage with without sacrificing intellectual rigour.

This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and stories about "public" sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New "Trending" boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's proposed Mexican border wall further segmentation of wealthy Americans in the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism

This brief anthology for introductory sociology is a collection of 24 short readings that illustrate key concepts in sociology, relate to the everyday lives of students, and spark good classroom discussions. The selections represent four theoretical traditions in sociology (functionalism, symbolic interaction, conflict theory, feminism) and show the range and diversity of sociology and the people who practice it. The book is designed for instructors who want to expose students to some original scholarship in their first sociology course, but who do not want to adopt a comprehensive reader along with the core text they are using.
